

Architect-Designer as International Architect Advisor**French** region (fulltime)

Streetlife is a successful company that designs and delivers contemporary, cutting-edge products for public spaces. Because the company develops all its products in-house and works on internationally trendsetting projects, a position at Streetlife is highly versatile and dynamic. We operate from our headquarters in Leiden, the Netherlands, located in a characteristic landmark warehouse, and from studios in Malmö and Philadelphia.

The Streetlife team of 45 colleagues, of which approximately 35 product designers and architects, collaborates with a large number of leading landscape architects and local authorities in Europe and North America. More information about our sustainable Collection and the Streetlife team can be found on our website.

Job description

To strengthen the team, Streetlife is looking for an architect or designer with a unique combination of technical know-how and a strong affinity with sales and design. Your background will allow you to quickly analyze project documents and act as a professional consultation partner for architects, landscapers, contractors and end users.

Initially, you will have a supporting role within the French-speaking team (consisting of 3 people) to gain experience with our working method and extensive Streetlife Collection. In addition to the regular activities, you will provide customers with appropriate design advice. We work with a horizontal structure that includes accuracy and conviviality. This position offers a friendly and dynamic working environment. A unique opportunity to work for a Dutch creative company in the top segment of the Landscape Architecture market.

Activities:

- Building up knowledge about the Streetlife Collection (www.streetlife.nl)
- Analyze plans/specifications of (landscape) architects, issue quotations and secure orders
- Administrative tasks and order processing according to company protocols
- Close collaboration with the international advisory team
- Post Corona: Attending Landscape congresses in France

Your profile:

- A degree in engineering, architecture or product design (higher vocational/university level)
- Strong written, oral & presentation skills in French (native speaker). Dutch, English and/or German are a plus
- Animated “sparring partner” and exceptionally good telephone and PC skills
- Knowledge of French culture and mentality is a plus
- Excellent organizational skills, detail oriented and ability to multitask
- Approximately 3 to max. 6 years of professional experience
- In possession of a driving license
- Living in the Randstad or willing to relocate to Leiden
